Important Notice

Bids for this Sale will be accepted ONLY on the terms as printed in this catalog. If you are bidding for the first time or if you are not acquainted with my Sale Terms, PLEASE BE SURE TO READ THE TERMS BEFORE BIDDING.

More than fifteen hundred catalogs of this Sale are being distributed. Therefore, in order to serve most satisfactorily so many clients, a uniform service or method of sale must be strictly adhered to.

The terms and methods of Sale used by me have been perfected after more than twenty-five years of successful experience. And while I know that it is humanly impossible to at all times please everyone, but the fact that my Sales are so widely and extensively patronized throughout these many years, is more than sufficient evidence that these terms and methods of sale are approved by the collectors of the country and that they are fair, reasonable and consistent with good business.

So please bear in mind that positively no deviations from the terms of sale as printed in this catalog will be made for anyone.

Every bid received is executed by me just as faithfully as if you had yourself been present at the sale. You can help me give you better service if you will please mail your bids now.

Very cordially,

It is to YOUR ADVANTAGE to Mail Your Bids Early!

To Avoid Misunderstanding Please Read These Terms of Sale Before Bidding

All bids are entered as received and lots distributed to the highest bidder without reserve. When two or more bids are the same, the first received gets the lot. When two or more unlimited bids on a certain lot are received, the first one received gets the lot at an advance of 5% over the highest bid.

When I receive your bids, I consider myself as your agent and buy the lot for you as much under your bids as the next highest bid will permit. I simply execute your bids for you as faithfully as if you had yourself been present at the sale.

I CHARGE NO COMMISSION FOR EXECUTING BIDS

Lots sold as catalogued. No lot is broken under any circumstances. Bid by number of lot and at SO MUCH PER PIECE. If there are ten pieces in a lot and you want to offer \$1.00 for the lot, make your bid 10c.

I guarantee all coins and notes to be genuine unless otherwise stated in catalogue. This guarantee holds good indefinitely.

NOTICE TO NEW BIDDERS

Buying coins at auction sales is not the same as receiving coins on approval. The coins are bought for you on your order and you are of course expected to accept and pay promptly for them. Auction purchases are strictly net cash. Be careful in making your bids. Be sure that you bid for the lot you desire and at so much PER PIECE.

TERMS: The terms of auction sales are strictly cash. Parties unknown to me must send a deposit covering at least 25 per cent of their bids, otherwise they will not be accepted, as I cannot be expected to ship goods to parties whose good standing is not known to me.

Remittance should be made promptly in any way most convenient to yourself.

A neatly printed list of prices of this sale, showing amounts realized for each lot, will be sent for only 50c, CASH WITH ORDER. This is surely the cheapest and best method to keep posted on the prevailing prices of coins.

PLEASE SEND IN YOUR BIDS EARLY. All bids must be in on or before Tuesday, June 30, 1930.

If you have any coins that you want to sell either at auction or private sale, write me for terms.

CATALOG

FINE SELECTION OF LARGE UNITED STATES CENTS.

The CENTS of 1793.

- 1 1793 The first issue and first type, the rare AMERI variety; chain on reverse; vine and bars on edge. Crosby 1-A. A light semi-circular planchet defect, resembling a break, just back of head. Strictly very fine, especially for this piece; an even medium olive surface, with traces of mint red within borders of chain. Well centered and well struck, especially for this variety which is usually found weak. A most acceptable specimen of this rarity and far above the average. Valued in the three-figure mark and certainly worth it.
- 2 1793 Wreath type, Crosby 6-F. Practically uncirculated. Classed by Mr. Lardner as uncirculated and it was so purchased. The highest portions show just the slightest cabinet friction. Perfectly centered and well struck, not the slightest flaw or minute nick. An even olive surface. A beautiful cent and as such rare and valuable.
- 3 1793 The very rare Liberty cap variety. Crosby 12-L. Perfect die. Pin-point nicks on edge but not affecting the appearance nor the value of the piece. Well struck and well centered. Fine for coin; dark color. Excessively rare variety. Seldom found better.
- 4 1793 Liberty cap. Crosby 13-L. Die break across obverse. Fine obverse with very fine reverse. In fact, one of the best specimens known of this variety and rarity. For this coin can really be classed as strictly very fine. Very rare and valuable.

UNUSUALLY COMPLETE AND RARE COLLECTION OF
The CENTS of 1794.

- 5 1794 Hays No. 1. Uneven date, with 4 low. Strictly fine to very fine for coin; an even medium olive surface, slightly glossy. Well centered, and unusually well struck. Very rare. Seldom equalled in condition. Classed as Rarity 5.
- 6 1794 Hays 2. Date even. Strictly very good, with parts of reverse fine. Two minute, hardly noticeable nicks on reverse edge. Grayish olive surface; perfectly centered. Rarity 5. Very rare.
- 7 1794 Hays 3. Very fair to good; can be classed as good for this rare variety. Very rare. Of equal rarity with No. 1 and 2.
- 8 1794 Hays 4. Planchet defect back of head, deep flake extending from about mid-way in Liberty cap to edge. It is not a dent nor a nick, but a planchet defect only. Strictly very good, and for this rarity could be classed as fine, especially on reverse. Rarity 6. Extremely rare.
- 9 1794 Hays 5. A tiny nick on obverse edge at left of Y and a light scratch near last curl, otherwise about fine, with slightly glossy dark olive surface. Very rare.
- 10 1794 Hays No. 6. Top of 4 touches bust. A very light, hardly noticeable small dent on reverse edge. Two pinpoint nicks on cheek. Fine, strictly so, dark olive surface. Very rare. Rarity 5.
- 11 1794 Hays No. 7. Heavy irregular wreath. Very good. Originally purchased as fine and I believe for this piece it could so be classed. Very rare and valuable. Classed as Rarity 6. High auction record.
- 12 1794 Hays 8. The extremely rare variety with ninety-four minute stars between the milling on reverse. Obverse, very good; reverse good. Classed as fine by former owner. Dark steel color. Excessively rare. Record well over \$100.
- 13 1794 Hays 10. Good, but fraction not struck up and lower portion hardly shows. Dark steel color. Rare; classed as Rarity 4.
- 14 1794 Hays 11. Planchet slightly flaked on obverse, but well centered. Good to very good; light olive surface. Rare variety.

15 1794 Hays 12. Variety with die break from hair to border and planchet break through Liberty cap. Very fine, sharp; not far from uncirculated. Light olive surface. A choice and very rare cent.

16 1794 Hays 13. A slight pin-point nick or dent in wreath just below F in OF. Strictly fine to very fine, with some traces of red on reverse. Light olive surface. Very scarce.

17 1794 Hays 14. Close date. Fine to very fine, especially for this variety. A glossy steel color. The reverse edge has two slight nicks. Sharp. Very rare, especially in choice condition. Probably not more than three or four specimens of this variety known in equal or better condition.

18 1794 Hays 15. The rare variety with die break on obverse and die break through fraction of reverse. Fine; medium olive surface. Rare.

19 1794 Hays 16. Wide date. About fine; light brown surface. A light, hardly noticeable dent on obverse edge, just at Liberty cap. A most acceptable specimen of this rare variety.

20 1794 Hays 17. Fine, strictly so. Pin-point nick on reverse edge at D of UNITED. Light surface. This variety shows a light die break through L of LIBERTY from border to head. Very scarce.

21 1794 Hays 18. Variety with die break from border to nose at right of Y in LIBERTY. Very good to fine; light nicks on edge. Very rare, classed as Rarity 7 and seldom found in equal condition.

22 1794 Hays 19. Variety with broken reverse die. About fine; dark steel color. Rare.

23 1794 Hays 20. Date low. Perfect die. Very fine, but lower portion of obverse and corresponding portion of reverse not struck up bold. Medium brown surface. A rather rare variety in unusually choice condition.

24 1794 Hays 21. Surface slightly rough. Die break through E of STATES. Grayish olive surface. Very scarce.

25 1794 Hays 22. Uneven date. Very good, but lower portion of reverse not struck up, and few minute nicks on obverse edge. Steel color. Very scarce variety.

26 1794 Hays 23. Variety with die break through date. Fine; dark steel color. Rare.

27 1794 Hays 24. Very good obverse with fine reverse. Struck on rather large planchet, perfectly centered; grayish olive surface. Very scarce.

28 1794 Hays 25. Obverse, very good; reverse, good. Extremely rare variety. Classed as Rarity 7. Seldom found better. One of the rarest varieties of this series.

29 1794 Hays 26. Good to very good, surface slightly rough; dark steel color. Rare die variety.

30 1794 Hays 29. Good to very good; surface slightly rough, but all letters plain and well centered. Extremely rare.

31 1794 Hays 31. About fine, well centered and well struck. Free from any serious nicks or dents. An unusually acceptable specimen of this extremely rare variety which is classed as Rarity 7.

32 1794 Hays 32. The so-called fallen 4. Extremely fine. Originally purchased as uncirculated, but the obverse shows slight cabinet friction which would not justify the coin being classed as uncirculated, but it is a beautiful specimen, well centered and well struck with even, slightly glossy olive surface.

33 1794 Hays 33. Good, with portions of coin fine, but light nicks on edge and lightly scratched back of head. Scarce.

34 1794 Hays 34. Close date, with light die break through 17 and circular die break on reverse. Very good to nearly fine. Very scarce.

35 1794 Hays 35. Strictly very good; well centered, and good impression; dark olive surface.

36 1794 Hays 36. Very good. A pin-point, hardly noticeable dent on reverse edge and a light nick on edge of Liberty cap. Medium brown surface. Rarity 3.

37 1794 Hays 37. Small cut on reverse edge, not affecting the appearance of the coin. Variety with die break on reverse. Very fine, sharp, with glossy steel color.

38 1794 Hays 39. Obverse, good; reverse, fair. Usual large planchet; brown surface.

39 1794 Hays 41. Die breaks back of head. Light edge dent at Y of LIBERTY, hardly noticeable. Strictly good. Very rare. Classed as Rarity 6.

40 1794 Hays 43. Another rare variety in unusually choice condition. Extremely fine, with golden olive surface.

41 1794 Hays 44. A very light nick at second T of STATES, otherwise strictly very good to fine; reddish brown surface. Excessively rare variety. Seldom offered. Valued in the three-figure mark.

42 1794 Hays 45. Die break through 9 of date and long die break on reverse. Small scratch to right of 1 and at forehead. Very good to fine. Scarce.

43 1794 Hays 46. Broken reverse die. Very good to fine; dark olive surface; slight edge dents and pin-point nick below point of bust. Very rare die variety. Classed as Rarity 6.

44 1794 Hays 48. Variety with die break just beginning to show. Nick before head. Reverse, nick through first A of AMERICA. Very good. Very rare.

45 1794 Hays 49. Heavy die break on left edge of obverse. Good; dark steel color. Rare.

46 1794 Hays 50. Very fine. Very light edge nicks on reverse. Even light brown surface. Very rare. Classed as Rarity 5.

48 1794 Hays 52. Small nick on bust and very light pinpoint nicks in field back of head. Very fine. Light brown surface. Rare.

49 1794 Hays 53. Very good, with some claims to fine. Light nicks on obverse. Medium olive surface.

50 1794 Hays 54. Fine to very fine, dark olive surface. Well centered and struck. Very scarce.

51 1794 Hays 55. Variety with die break across obverse. Light edge dents on reverse. Very good, but center of reverse not struck up; steel color. Very rare.

52 1794 Hays 56. About fine, but light corrosion spot on reverse. However, the coin is unusually boldly struck. Rare variety.

53 1794 Hays 57. Good to very good. Extremely rare. Classed as Rarity 7. Grayish olive surface. Seldom offered. Very few specimens known.

54 1794 Hays 58. Small dent on reverse edge. Very good to fine. The coin can easily be classed as fine for this very rare number. Dark steel color. Very rare and valuable.

LARGE U. S. CENTS FROM 1795 TO 1857.

Including Choice Specimens of 1799 and 1804.

55 1795 Daughtry 66. Thin planchet, plain edge. ONE CENT high in wreath. Uncirculated, with even medium brown surface. A sharp, beautiful specimen with complete milling on obverse and almost complete on reverse. Rare so choice.

56 1795 Daughtry 66. Another just as last, but even finer. Perfectly centered with milling complete on both sides and with a light olive surface nicely blended with original mint red. Magnificent cent, and as such rare and valuable.

57 1795 Thick planchet, Daughtry 67. Lettered edge. Extremely fine, sharp, with steel color. Extremely rare and valuable in this choice state of preservation.

58 1796 The curious and rare LIHERTY variety. Light, hardly noticeable scratch on obverse. Very fine, only slightest touch of circulation, with light brown surface blended with traces of original mint red. Very rare and valuable so choice.

59 1798 Doughty 124. So-called small date. Uncirculated, with medium golden olive surface and frosty mint luster. The highest portions of bust shows the barest touch of cabinet friction. A beautiful cent and as such very rare. Seldom offered.

60 1799 over '98. Unusually bold date, with bottoms of 9 distant from border. Perfectly centered and with unusually strong impression on reverse. The obverse had been slightly pitted from a faulty planchet. Dark, slightly glossy olive surface. One of the best specimens of this, the rarest cent, that I have ever handled. Extremely rare and valuable. Valued up to \$200.00.

61 1799 Perfect date. Fine for coin. I realize that "fine for coin" is a rather indefinite description. What is "fine" for one coin should, I believe, apply to any other coin, but this cent is so difficult to obtain in better than fair condition, that I believe we are almost justified in using the above description for this particular rarity.

62 1800 Doughty 146. The so-called dotted date. Die break through date and also through IBE of LIBERTY. **Uncirculated**, with almost full mint red. The original mint red is nicely blended with light glossy olive and frosty mint surface. The cheek and drapery only show slightest cabinet friction, but the coin is an out-and-out uncirculated specimen and a great rarity in this remarkable condition.

63 1801 Doughty 156. The unusual variety with three errors; IINITED instead of U in UNITED; only one stem to olive branch and 1/000 instead of 1/100. Strictly fine; dark steel color. A rare variety difficult to find so choice.

64 1801 Not in Doughty, Newcomb 12. Tiny die break on edge above B in LIBERTY. **Uncirculated**, sharp, with beautiful iridescent mint red and olive. Almost equal to a proof. Very rare and valuable in this remarkable condition and only available when important collections are placed on the market.

65 1803 Small 3 in date. Doughty 193. Large fraction. **Uncirculated**, sharp, with beautiful light golden olive surface. Very rare so choice.

66 1804 Variety with die breaks on obverse and reverse. **Extremely fine.** Originally listed by Mr. Lardner as uncirculated. This particular specimen shows very little evidence of circulation, only the highest portions show the slightest wear or cabinet friction. Well centered and unusually bold impression. Even dark olive surface, almost steel color. One of the finest specimens known. Extremely rare and valuable.

67 1804 Variety with die break on obverse only. Two light scratches to right of F in OF. Strictly fine, dark olive surface. Very rare.

68 1804 Die break on both obverse and reverse. Very good to fine, dark olive, with traces of brown. Rare.

69 1805 Doughty 199. Blunt 1 in date. Practically uncirculated, with dark olive, glossy surface. Perfectly centered and well struck with even bold impression. This coin came to me listed as uncirculated. An extremely difficult date to obtain so choice, and as such rare and valuable.

70 1806 **Uncirculated**, mint red and light olive, nicely blended; perfectly centered and struck. Unusually bold impression for this date. A magnificent specimen of this scarce date and in this remarkable condition is of excessive rarity. Probably not more than five or six specimens known of this date cent in this remarkable condition.

71 1807 over '06. The excessively rare variety with small 7. The obverse struck slightly off center. Pin-point nicks on obverse, hardly noticeable. Very fine; the reverse is really extra fine and well centered. Dark steel color. Excessively rare. This is, I believe, the first specimen that I have ever offered at auction. In point of actual rarity it is far more rare than the 1799 or 1804. And in this condition, should bring well into the three-figure mark.

72 1808 Thirteen stars. Variety with point of leaf even with right side of S. Practically uncirculated, with light brown surface. Well centered and an unusually bold impression for this usually weakly struck cent. Rare and valuable.

73 1809 Doughty 210. Variety with the die break at third star on right plainly visible. Extremely fine, or rather practically uncirculated, with even glossy bluish steel color. Obverse struck slightly to left. Reverse, almost perfectly centered. The reverse is absolutely uncirculated. Very rare. Seldom equalled.

74 1810 over '09. **Uncirculated**, sharp, with red and olive surface. Unusually bold impression, with all stars filled. Rare so choice.

75 1811 Perfect date. **Uncirculated**, olive brown color. Remarkably impression. Obverse, struck slightly to right. Reverse, about perfectly centered. A most difficult date cent to find in choice condition and seldom in uncirculated. Extremely rare and valuable.

76 1814 Plain 4 in date; die break from 8 to third star on right. The so-called bearded variety. **Uncirculated**; light brown surface. Scarce.

77 1827. **Proof**. Dark olive surface, sharp, perfectly centered and almost in full brilliancy. Very rare. Seldom offered.

78 1839 over '36. Perfect die. Strictly very fine, evenly centered; medium glossy olive surface. Very rare in this condition. Seldom equalled.

79 1841 **Brilliant proof**. Sharp, even impression; the field just barely rubbed. Excessively rare. Probably not more than five or six known. In this remarkable condition it is as valuable as almost any cent.

80 1851 Perfect date. **Uncirculated**, bright mint red. Just about as perfect as the day it was minted; all stars sharp.

81 1855 Upright 5's. **Brilliant**, **uncirculated**, full mint red. Scarce.

82 1856 Slanting 5 in date. **Proof**. Sharp impression. Reddish purple surface. Rare in proof.

83 1857 Small date. **Uncirculated**, partly red; dark brown surface. Scarce.

84 1857 Large date. **Uncirculated**, mint red and light olive, with considerable brilliancy almost equal to a proof. Very scarce.

RARE PIONEER AND TERRITORIAL GOLD COINS.

Fine Round \$50.00 Gold Piece.

85 1855 \$50.00, Wass Molitor & Co. Small head, date below. thirteen stars. Reverse, 50 DOLLARS in wreath, 900 THOUS in small letters above; legend, WASS MOLITOR & CO. SAN FRANCISCO CALIFORNIA. Round, milled edge. Fine, strictly so. The usual minor small nicks, but free from any serious dents. The LLA of DOLLARS not well struck up, otherwise a well struck specimen of this rare and very popular coin, which is steadily increasing in demand and value. Valued at \$500.00 and certainly worth it.

Octagonal \$50.00 Gold Piece.

86 1852 \$50.00, Augustus Humbert. 887 THOUS. The very rare variety with small date. Octagonal. Some of the corners are very lightly dented as is usual on these pieces, but the dents do not detract from the appearance nor value of this specimen as it is an unusually well struck piece and shows but little circulation. All the lettering on the outer border is plain and well struck as is also the date. Strictly fine to very fine and one of the rarest varieties of the octagonal slug. High auction record.

Very Rare Augustus Humbert \$20.00.

87 1852 \$20.00. Obverse, eagle with shield and ribband as on the \$50.00 gold coin, 884 THOUS on scroll above; legend, UNITED STATES OF AMERICA TWENTY DOLS. Reverse, oblong tablet on engine-turned designed, AUGUSTUS HUMBERT. UNITED STATES ASSAYER OF GOLD CALIFORNIA 1852. Very good, with claims to fine on obverse. Extremely rare. The rarity of this coin is appreciated by but very few collectors. Seldom offered. Record for choice specimen of this coin up to nearly \$400.00.

First Coin Struck of California Gold.

88 1848 \$2.50. Type of regular issue but with CAL incused (stamped in) directly over eagle. Extremely fine, nearly uncirculated, with considerable mint luster. Rare and of historical interest. This coin is one of a limited number struck from a small quantity of California gold sent by the Military Governor of California with the request that it be used in making quarter-eagles to bear a distinguishing mark such as the Director of the Mint may think proper.

The Excessive Rare Mormon Twenty-Dollar Gold Pience.

89 1849 \$20.00. Obverse, clasped hands, date below; around G. S. L. C. P. G. (Great Salt Lake City Pure Gold) TWENTY. DOLLARS. Reverse, Bishop's mitre over all-seeing eye; legend, HOLINESS. TO. THE. LORD. Raised borders; plain edge. One of the finest specimens of this great rarity I have ever handled. Extremely fine, with unusually bold impression and some slight traces of luster among the letters. This specimen was secured by me three years ago while in Europe, and sold to Mr. Lardner. It came from the collection of Prince Philip of Gotha-Coburg. Extremely rare and valuable. Record up to \$700.00. And I believe that the day is not distant when this great rarity will bring well into the four-figure mark.

90 1849 Mormon \$5.00. Type just as last. Pin-point nick above hand, otherwise fine. Rare.

Carolina \$5.00 Gold.

91 1834 \$5.00. Carolina Gold, C. Bechtler at Rutherford. The unusual variety with AUGUST 1. 1834. Variety with 140 G. 20 CARATS. Plain edge. Fine. Rare.

THE COLLECTION OF MR. H. N. WALTON.

UNITED STATES SILVER DOLLARS,

Including All the Rare Dates.

133 1794 First year of issue. One of the rarest dollars. A strictly very good specimen, and considering the coin, has considerable claims to being fine. As usual, the lower left portion of obverse and corresponding side of reverse not struck up as bold as the other portions of the coin. Very light scratches back of head, hardly noticeable, and the letter D very faintly scratched below chin. These defects are hardly noticeable, but only mentioned due to the important rarity of the coin. Worthy of a home in any collection. Extremely rare and valuable.

134 1795 Head type. Variety with die break back of head. Practically uncirculated, sharp, with mint luster. Minute nick below right wing of eagle. Variety with three leaves under wing. Rare so choice.

I SOLICIT FOR MY PROVEN SUCCESSFUL SALES

Collections of Rare Coins, or I Will Purchase Outright for Immediate Cash Payment.

Through my extensive advertising for the past more than twenty-five years, I enjoy by far the greatest numismatic market of any other similar firm. In the past six years alone I have spent in actual cash over a hundred and fifty thousand dollars for magazine advertising, creating new collectors by the hundreds, thereby giving me by far the largest numismatic market.

My sales are carefully planned, extensively advertised and successfully conducted. In the past several years, you have noticed that the greater preponderance of all real fine and important sales were held by me.

Write me for terms. They are no higher than elsewhere. Liberal amounts of cash advanced without interest.
